

At Newcrest our safety vision is for everybody to go home safe and healthy every day. We are committed to providing a work environment where everyone can actively participate in the achievement of this vision.

**Caring
about people**

To achieve this we will

- build a strong, supportive safety and health culture based upon visible leadership, consultation and engagement through NewSafe
- ensure that our people are skilled in hazard identification, risk assessment and risk management, including Critical Control Management, and can apply these skills in the field to protect themselves and their workmates consistently
- manage high-energy processes through the application of robust Process Safety management techniques
- use our OHS management and assurance systems to provide the right standards, training, equipment and tools for people to work safely
- actively seek out opportunities for continual improvement through innovation and consultation
- support the health and safety of our people on and off the job
