

# Scholarships – Cadia Valley

## **TERTIARY EDUCATION SCHOLARSHIPS**

Cadia Valley offers 2 tertiary education scholarships every year to local students wishing to study one of the many mining industry related disciplines. The scholarships are to the value of \$7,800 per annum. In addition, Cadia Valley offers scholarship recipients the opportunity to undertake vacation work with us during the term of their study. The scholarships provide an opportunity for Cadia Valley to share the benefits of our mining operations with the local community – and to encourage the best local people into our industry.

Cadia Valley is currently supporting four scholarship winners in their tertiary studies and will add another two scholarships every year.

## **2004 SCHOLARSHIP WINNERS**

The 2004 scholarship recipients – Nicholas Hoye and Tim Bieler – were both students of Orange High School. Both Nicholas and Tim will study mechanical engineering. Whilst all of the candidates were of a very high standard, it was Nicholas and Tim's determination to achieve, and passion for their chosen career path in the mining industry, that set them apart.
